Garage and Lot Daily Parking Rates

Each 30 Mins to 2 Hours	\$1.00
2-3 Hours	\$7.00
3-5Hours	\$9.00
5-8 Hours	\$12.00
8-10 Hours	\$15.00
10-12 Hours	\$18.00
12 hrs. – 6am Next Morn	\$20.00
Lost Ticket Rate	\$60.00
Standard Event	\$17.00

*** EVENT PARKING**

A flat rate fee of \$17.00 may be assessed upon entry to the parking facilities during Convention Center and/or Arena events as deemed necessary by the Parking Manager. Prices subject to change based on demand. During *Premium* Events, event rates may be increased up to \$20.00.

The following rules apply with all event parking fees:

- There are no in and out privileges.
- The charge is per space used at the location. (Fees doubled for vehicles using two spaces, etc.)
- Vehicles that stay past 6am the following day of an “Event” entry will be responsible for additional charges calculated on the regular daily parking rates. Charged per space.

Oversized Vehicles: Defined as any vehicle that requires more than one parking space or exceeds the posted height clearance. ALL “Oversized” vehicles are directed to our East Lot location. These vehicles include buses, box trucks, vehicles with a trailer, delivery trucks and tractor-trailers. Oversized vehicles are charged on a per-space basis. For example, “*school buses*” are charged for two (2) spaces and “*charter buses*” for three (3) spaces.

Transient Oversized vehicle rates are equal to the duration of stay based on the entry ticket multiplied by the number of spaces utilized.

Oversized vehicle rates are as follows:

- School busses \$20/Day during School Events at the GCCC. Otherwise, \$40/Day
- Charter/Tour Bus or Semi-Truck and Trailer or Full-Size Pickup Truck with 5th Wheel = \$60/Day
- All other oversized vehicles are \$20.00 x # of spaces used (or impacted due to vehicle parking) x # of days on site. (Minimum charge \$40.00 plus administrative fee if billed per vehicle per day)

Available Event Rate Options:

Please keep in mind that the ability to offer other than our standard event rates depend on the method in which the client chooses to validate parking and duration of stay in the building. Also, please note that these rates do not apply to oversized vehicles. No discounts other than “Marshalling” privileges are available to oversized vehicles.

The following “Non-Standard Event Rates” are available for client paid validations that fall into the criteria below:

\$7 – Time in building* 3 hours or less

\$9 – Time in building* 5 hours or less

***Time in building is determined by the projected time between entering the parking facility and exiting. NOT length of program.**

CLIENT VALIDATION OPTIONS

A validation is defined as a pre-arranged agreement with a specific client where the attendee pays a zero fee, and the client will be invoiced or master billed the balance post- event based on redemption and incurred fees. All are based on availability and do not provide guaranteed* parking. *Item 6 does guarantee a space without the additional reservation costs.

1. **Validation Ticket:** A small white paper with a unique Qr or barcode code issued to an attendee, either in advance of the event or the day of the event. The attendee will utilize this ticket as payment for their parking. The incurred/validated charges are then billed back to the client master bill. (Rates includes standard administrative costs.) **Additional rates apply if used for an extended/multi day visit.**
2. **Paper Passes:** Designed to be created in advance and emailed to a client to distribute to their attendees in advance of their arrival to the GCCC. They would include a “Bar Code” or “Qr Code” that is created and assigned by the Parking Department. These coded passes should be used to scan in and out of the chosen location. Cost to the client is \$19.55 per transaction. (Rate includes standard administrative costs.) **Additional rates apply if used for an extended/multi day visit.**
3. **Bar Code Access:** We can generate individual event bar codes that can be used by our clients to include on their printed materials. It can go on invitations, event ID badges, and attendee directions from the client, etc. **However,** since the barcode needs to be a certain size, the parking department requires a “Final Draft” of the client’s material for testing and final approval. Cost to the client is \$19.55 per transaction. (Rate includes standard administrative costs.) **Additional rates apply if used for an extended/multi day visit.**
4. **VIP Passes:** We can generate a paper pass/barcode/Qr code that would allow in and out privileges for a programmed span of time. Anything from 1 day to a week or more. Cost for VIP Bar Code Passes is \$28.75* each per day**. *Rate includes standard administrative costs. ****Day resets at 6am.**
5. **Online Validations:** We can provide our clients the ability to validate their attendee’s parking. We would create and issue a username and login password that would allow clients, registration desks, etc. to validate attendee parking via a smartphone, tablet, laptop, or desktop computer. (Hardware provided by client) Validations can reduce the attendee parking be either a percentage (0-100%) or dollar amount. The client would be billed based on the validated value of the parking plus the standard administrative fee. This process does require the attendee to present their ticket for validation.

6. **Online Parking Permits:** Advanced parking is available for purchase through the GCCC website. The process is very similar to what you would experience via Spot Hero or another 3rd party reservation system. Clients can opt to have their events listed for online purchase in lieu of validating parking. This way they have a guaranteed space at their location of choice without the premium reservation fee. There is a standard \$3.50 online convenience fee per transaction. Multi day and **VIP Passes** can be available for sale as well by request. VIP passes include in and out privileges and provided at a premium rate based on the request.

Online permits require the user to use the pass to enter and exit their chosen location.

7. **Reserved Parking:** When master billed or paid in advance to the parking department, we can offer our clients the ability to “Reserve” parking spaces. The following is a breakdown of those offerings.
- a. Client can choose to reserve spaces in a specific facility for their guests. Cost is \$25.00 per space to reserve. Clients would receive the appropriate validation method based on the number of spaces reserved.
 - b. Client can choose to reserve designated parking spaces in a facility for their guests. Those spaces would be secured by cones or other affirmative means. Cost is \$30.00 per space. Clients would receive the appropriate validation method based on the number of spaces reserved. Staffing to manage the reserved area for the client is not included but can be arranged at additional costs.

Please do not hesitate to contact our management team if you have any questions regarding the information listed above. We are eager to advise and assist clients with special requests or needs.
